OFFICE OF STATE AID ROAD CONSTRUCTION
MISSISSIPPI DEPARTMENT OF TRANSPORTATION
Jackson, Mississippi

S.A. Form TP-100
(Rev. 7-1-05)

TEST PILE REPORT

Sheet No. _____ of _____

DIESEL HAMMER

Structure No. _____

Date _____ Project _____ County _____

Test Pile No. _____ Bridge No. _____ Bridge Station No. _____

Location of Test Pile _____ at _____ Feet Right, Left of Center Line

Length of Pile _____ feet Pile Type/Size _____ inches

Elevation Ground at Test Pile _____ Make and Size of Hammer _____ "W" _____ Lbs.

NOTE: Record tip elevation at end of each foot or fraction thereof . Submit curve plotted on 8 ½" x 11" graph or cross section paper showing relation of tip elevation as ordinates to corresponding bearing as abscissas.

Elevation of Pile Tip	Total Ground Penetration Feet	Blows Per Minute	Energy Per Blow	Blows Per Foot Penetration	Av. Penet. Per Blow Feet	Av. Penet. Per Blow Inches = "S"	Bearing in Tons	Remarks

REMARKS: _____

NOTE: For Concrete and Steel Piles

$$P\ (\text{Tons}) = \frac{2\,W\,H}{(S + 0.2)\,2{,}000}$$
